

Hawaii Performance Standards for School Counselors*

Revised March 5, 2012

*School counselor performance standards align with the American School Counselor Association (ASCA) National Model and contain basic standards of practice expected from counselors. Personnel delivering the school counseling program are evaluated in the areas of program implementation, program evaluation and professionalism. All too often, school counselors are evaluated using an instrument designed for teachers or resource professionals. These school counselor standards accurately reflect the unique training of school counselors and their responsibilities within the school system. Although used for performance evaluation, the standards are also an important tool in the school counselor's own self-evaluation and advocacy, and will help focus personal and professional development plans. It is suggested that school counselors and administrators work within their individual systems to design appropriate evaluation and/or appraisal tools that meet their district governing board and bargaining unit policies. It is recommended that administrators evaluate school counselors every year. An evaluation should include individual comments as well as a rating system for how well the school counselor is meeting required performance standards.
