Hello,

Thank you for participating in the Spring Pilot of the PPAT. We appreciate the contributions of your students to the development of this assessment. Their contributions, along with your feedback, will be instrumental as the PPAT becomes operational in the fall.

Below you will find the scoring data from the scoring session that took place in late April and May. The scoring data includes: candidate IDs, scores by tasks at each step, a total score for each individual task (2-4), and a cumulative score for the assessment.

In addition we are attaching feedback documents for each step for each task that indicates what the numerical score indicated in the score report means. The feedback document is organized by score level per step and task. We encourage your students to look at the feedback for the score levels above and below their score, to fully understand their strengths, weaknesses, and where there are opportunities for improvement.
